

MPO Plus Internal Shutter Adapter

Advanced Dust and Laser Protection in Every Connection.

The ACON OPTICS MPO Plus Internal Shutter Adapter is designed for ultimate performance in high-density environments. Its internal shutter offers superior protection against dust and laser exposure, ensuring safe, reliable connections. With a robust design and compact profile, it is the perfect solution for modern data centers, telecommunications networks, and harsh environments.

Dust Protection

Eye Protection

Features

- Internal Shutter for dust and laser protection
- No dust cap required on shutter side
- Snap-In design for quick and easy installation
- Compatible with SC Footprint
- Supports key-up/key-down and key-up/key-up orientations.

Step-by-Step

STEP 1

Insert Connector
When the connector is inserted, it compresses the springs, causing the internal shutter to open.

STEP 2

Shutter Opens
The shutter opens without touching the ferrule end face.

STEP 3

Connector Mating
The ferrule is inserted into the adapter once the shutter is open.

STEP 4

Remove Connector
As the connector is pulled out, the spring automatically closes the shutter.
